

**SECTION 1: IDENTIFICATION**

Product identifier used on the label	Restaurax Aerosol
Recommended use of the chemical and restrictions on use	RESTAURAX has been developed to exclusively restore the external plastic surfaces of the vehicle. The product is easy to apply and forms an excellent protective film.
Manufactured by	EVC INDUSTRIAL LTDA
Address	Rua Luis Francisco Xavier n.º 520 Paupina - Fortaleza, CE
Telephone number	+55 0800 591 6496
Fax	Not available
Emergency phone number	+55 0800 591 6496
Email	sac@vonixx.com.br e info@vonixx.com
Web site	www.vonixx.com.br

SECTION 2: HAZARD(S) IDENTIFICATION**2.1 Classification of mixture**

Flammable liquids (Category 2)

2.2 Appropriate labeling elements

Hazard pictograms

Signal word

Caution

Hazard statements

H225 Highly flammable liquid and vapour.

Precautionary statements

Prevention

P210 Keep away from heat/sparks/open flames/hot surfaces.– No smoking.

P233 Keep container tightly closed.

P240 Ground/bond container and receiving equipment.

P241 Use explosion-proof electrical/ventilating/lighting/.../equipment.

P242 Use only non-sparking tools.

P243 Take precautionary measures against static discharge.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

Emergency

P303 + P361 + P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

P370 + P378 In case of fire:For extinguishing use a carbon dioxide extinguisher.

Storage

P403 + P235 Store in a well-ventilated place. Keep cool.

disposition

P501 Dispose of the content and recipient in accordance with the At an approved on-site treatment facility, at an approved waste treatment facility expenses.

2.3 Other hazards that do not result in classification

Not available

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Mixture

Hazardous Ingredients or Impurities

Common chemical name or technical name	CAS Registration Number	Concentration or range
Propane	74-98-6	20% - 30%
Butane	106-97-8	5% - 10%

SECTION 4: FIRST-AID MEASURE

4.1 Description of first aid measures

Inhalation	Remove victim to fresh air.
Skin contact	Wash exposed skin with sufficient amount of water to remove material.
Eye contact	Wash with plenty of water. Consult an ophthalmologist.
Ingestion	Do not induce vomiting. Rinse victim's mouth with plenty of water. See a doctor.

4.2 Most important symptoms/effects, acute and delayed

It causes skin irritation with redness, pain and dryness.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Use water mist, alcohol resistant foam, carbon dioxide (CO₂) or dry chemical powder. Do not apply water jets directly.

5.2 Special hazards arising from the substance or mixture

Combustion of the chemical or its packaging can form irritating and toxic gases such as monoxide and carbon dioxide.

5.3 Special protective equipment and precautions for fire-fighters

Positive pressure self-contained breathing apparatus (SCBA) with full protective clothing. Containers and tanks involved in the fire should be cooled with water mist.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment, and emergency procedures

6.1.1 For personnel who are not part of the emergency services

Wear protective equipment. Isolate and flag the area. Do not smoke. Avoid contact with the product. Do not breathe vapor or spray. Ensure adequate ventilation. Evacuate hazardous area, observe emergency procedures, consult specialist.

6.1.2 For emergency service personnel

Wear appropriate protective equipment. Keep unauthorized persons away. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapor accumulation that may form explosive concentrations. Vapors may accumulate in low areas. Extremely flammable product, remove all sources of ignition. Prevent sparks or flames. Do not smoke.

6.2 Environmental precautions

Isolate the area. Prevent the spread of spilled material. Prevent spilled material from reaching waterways and sewers. Leaks should be reported to the manufacturer and / or environmental agencies. Prevent spilled material from reaching waterways, sewers, ventilation systems or confined areas.

6.3 Methods and materials for containment and cleaning up

Isolate spill or leak area to a radius of 100 meters at least in all directions. Use natural dikes or barriers to contain product leakage. Absorb with inert absorbent material (sand, diatomite, vermiculite). If it is possible to seal the leak by using bungs, sealing tape or by inverting the hole / tear / dent up. Collect all material in suitable, properly labeled containers for later treatment and disposal. Waste must be disposed of in accordance with Local, State or Federal environmental legislation. For transshipment check an appropriate location and perform the safety procedures described above. Use water mist or vapor suppressing foam to reduce product dispersion.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

Handle in a well-ventilated area or general local exhaust / ventilation system. Avoid formation of vapors and mists. Avoid contact with incompatible materials. Adopt personal protective measures. Observe the expiration date. Do not reuse the empty package. Do not wash containers in lakes, fountains, rivers and other bodies of water. Do not eat, drink or smoke while handling the product. Wash after handling, especially before meals. After work, remove protective clothing and bathe. Avoid contact with combustible materials. Wherever possible, transfer of this material should be done automatically and to avoid spreading or spillage the transfers should be careful and the capability of the destination container checked. Never return contaminated material to original container. Only anti-fraying equipment and tools should be used during handling operations of this product, especially when opening or closing containers. It is recommended that people thoroughly wash all parts of the body that have been exposed to the product, whether or not skin contact has occurred.

7.2 Conditions for safe storage, including any incompatibilities

Store in covered, dry and well-ventilated area. Protect packaging from physical damage. Keep container tightly closed when not in use. Keep away from incompatible materials, odorous or toxic substances.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

Appropriate engineering controls

Provide local exhaust or general ventilation in the work area to minimize vapor concentration. Eye wash supplies and emergency safety showers should be available in the immediate vicinity of any potential exposure.

Butane (106-97-8)						
ACGIH	TWA: Not available (mg/m ³)	TWA: Not available (ppm)	STEL: Not available (mg/m ³)	STEL: 1000 ppm	(C): Not available (mg/m ³)	(C): Not available (ppm)
Propane (74-98-6)						

8.2 Exposure controls

Biological Limit (s)

Not available

8.3 Personal protective equipment

Eye/face protection

Eye protection (wide vision safety glasses).

Skin and body protection

Apron. Safety shoes. Gloves.

Respiratory protection

Respiratory protection mask.

Thermal hazards

There are no thermal hazards related to this product.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Appearance

Liquid aerosol, Colourless.

Odor and odor threshold

Distinctive

pH

Not available

Melting point/freezing point

Not available

Initial boiling point and boiling range

Not available

Flash point

>= -22 °C closed vase

Evaporation rate	Not available
Flammability (solid, gas)	Not available
Upper/lower flammability or explosive limits	Not available
Vapor pressure	Not available
Vapor density	Not available
Relative density	Not available
Solubility(ies)	Water immiscible
Partition coefficient: n-octanol/water	Not available
Auto-ignition temperature	Not available
Decomposition temperature	Not available
Kinematic viscosity	Not available
Dynamic viscosity	Not available
Additional information	Not available

SECTION 10: STABILITY AND REACTIVITY

Reactivity	Not available
Chemical stability	The product is chemically stable under standard ambient conditions.
Possibility of hazardous reactions	Not available
Conditions to avoid	High temperatures.
Incompatible materials	Not available
Hazardous decomposition products	No known hazardous products of decomposition

SECTION 11: TOXICOLOGICAL INFORMATION

Acute Toxicity	Not available
Skin corrosion/irritation	It causes skin irritation with redness, pain and dryness.
Serious eye damage/eye irritation	Not available
Respiratory or skin sensitization	Not available
Germ cell mutagenicity	Not available
Carcinogenicity	Not available
Toxicity to reproduction	Suspected of affecting fertility or the unborn child.
Specific target organ toxicity - single exposure	Not available
Specific target organ toxicity - repeated exposure	Not available
Aspiration hazard	It can be deadly by ingestion and penetration into the respiratory tract.

SECTION 12: ECOLOGICAL INFORMATION**12.1 Ecotoxicity**

Not available

**12.2 Persistence and degradability**

The product is expected to be non-persistent and rapidly degradable.

12.3 Bioaccumulative potential**Butane**

Partition coefficient n-octanol /water (log Kow): 1.09 to 2.8 to 20 °C.

12.4 Mobility in soil

Not available

12.5 Other adverse effects

Not available

SECTION 13: DISPOSAL CONSIDERATIONS**13.1 Waste treatment methods**

Product	Treatment and disposal procedures should be evaluated individually for each product. Existing federal, state and local laws should be consulted.
Rest of the product	Keep the remains of the product in their original packaging and properly sealed. Disposal must be performed as established for the product.
Used packaging	Do not reuse empty packaging. These may contain product debris and should be kept closed and shipped for proper disposal as established for the product.

SECTION 14: TRANSPORT INFORMATION

Ground transportation	UN - "United Nations" Recommendations on the TRANSPORT OF DANGEROUS GOODS. Model Regulations
UN number	1950
Proper Shipping Name	AEROSOLS
Class	2.1
Subsidiary risk class or subclass	N/A
Risk number	N/A
Packing group	N/A
Maritime transport	Rules of maritime authority (NORMAM). NORMAM 01/DPC: vessels employed in open sea navigation. NORMAM 02/DPC: vessels employed in interior navigation. IMO - "International Maritime Organization". International Maritime Dangerous Goods Code (IMDG Code).
UN number	1950
Proper Shipping Name	AEROSOLS
Class	2.1
Subsidiary risk class or subclass	N/A
EmS	N/A
Packing group	N/A

Danger to the environment

The product is not considered a marine pollutant.

Air transport

SUPPLEMENTARY INSTRUCTION - IS. ICAO \"International Civil Aviation Organization\" - Doc 9284-NA / 905. IATA - \"International Air Transport Association\". Dangerous Goods Regulation (DGR).

UN number

1950

Proper Shipping Name

AEROSOLS

Class

2.1

Subsidiary risk class or subclass

N/A

Packing group

N/A

SECTION 15: REGULATORY INFORMATION

29 CFR 1910.1200, Hazard Communication

29 CFR 1910.272, Grain Handling Facilities

Regulation 1272:2008: GHS, United Nations, 3th Revised Edition, 2009

UN Recommendations on the TRANSPORT OF DANGEROUS GOODS. Model Regulations, 19th Edition, 2009.

Globally Harmonized System of Classification of Chemicals (GHS), 5th Edition, 2013

Other information

This SDS has been prepared on the basis of current knowledge on the proper handling of the product and under normal conditions of use, according to the application specified on the package. Any other use of the product that involves its combination with other materials, in addition to forms of use other than those indicated, are the responsibility of the user. It is advised that the handling of any chemical substance requires prior knowledge of its hazards by the user. At the workplace, the company that uses the product should promote the training of its employees regarding the possible risks arising from exposure to the chemical.
